### Counseling Services Team

The counseling services team helps students who aim to study abroad by answering their questions. Since the beginning of the 2021 year, the team members have answered **(92) questions**.

The Student Counseling Center at the Egypt Scholars Organization provides free academic advising and scientific advice services to the university and postgraduate students.

The center seeks to prepare students for the best ways to communicate with the scientific community and to prepare for applying for scholarships in the best universities in the world.

The services provided by the center range from answering general or specialized questions in various scientific and

theoretical fields, as well as providing detailed advice on preparing to apply for postgraduate studies and grants abroad.

FOR FURTHER INFORMATION

## Financial Aid

Financial Aid is a service provided by Egypt Scholars to financially support distinguished students during their application to scholarships abroad, through: 1- Financing the test expenses required to apply for these scholarships, such as the IELTS, TOEFL, and GRE tests. 2- Financing the application fees for universities abroad "some universities require fees to accept the submission of the student's application file". The fundraising campaign achieved its goal and target required for funding students with a total of 5533 dollars [111% of the goal]. The application to the grant was available, in the period from March 31, 2021, until June 15, 2021, for the graduates of the Egypt Scholars Labs and beneficiaries of the counseling and document revision services in the previous years. During that period, 45 students applied for the grant,

and the evaluation process to select the accepted students is currently underway.

So, we hope you continue your donation to achieve more progress, and establish our slogan:

" Every mind makes a difference ". You can donate via this [link](#)

Best regards.
