## Clubhouse Team

Many of us always have a lot of ideas about changing our research field, as well as changing our own work in a specific field, but he does not stray too far, as he often chooses a field that is also closer to his first field, either directly or indirectly.

On this topic, Egypt Scholars Inc.Scholars held a dialogue on the clubhouse platform, in which it hosted researchers who have changed their field of research.

## Egypt Scholars' annual fundraising campaign

We have launched the Egypt Scholars annual fundraising campaign. This campaign is very important to maintain the continuation of Egypt Scholars' activities.

Our target in this campaign is 50,000 \$ (we have reached 16000\$ until now), to provide the following:

- 1- Create learning-devices prototypes for visually impaired children.
- 2- Produce a Braille printer prototype, which is a significant starting step to help thousands of blinds.
- 3- Organize an employment fair and support graduates to be prepared for the market by job-customized courses.
- 4- Conduct more courses as the two courses that we did last year, Machine Learning and Bioinformatics. This year, we aim to hire instructors to guarantee their commitment for extended times.
- 5- Start a scientific journal to help mainly ES-Labs graduate students publish their scientific papers.

And We wish if you could help by donating via this link:
