

October Newsletter - 2021

Dear Egypt Scholars Donors, We hope you are doing well and we would like to share with you our monthly newsletter for October 2021.

Counseling Services Team

The counseling services team helps students who aim to study abroad by answering their questions. Since the beginning of the 2021 year, the team members have received (265) questions.

The services provided by the center range from answering general or specialized questions in various fields, as well as providing detailed advice on preparing to apply for postgraduate studies and grants abroad

DAR Team

The DAR team organizes many lectures in various fields, where specialized professors and experts give lectures, each in his field.

Most of these lectures are recorded and uploaded to our YouTube channel.

A lecture on academic life, talking about the doctoral stage, and covering the most important lessons learned in how to deal with supervisors and setting goals for a doctoral study. Then the post-doctoral stage, determining the choice between working at the university or moving to industry and how the researcher will market himself during this period. Finally, the stage of transition to academic life with the appointment to the first permanent academic position.

This webinar dealt with the most important steps that a translator should take to match his academic education with the requirements of the labor market. The lecturer discussed the problem of the large gap between academic life and the requirements of the labor market, and how a translator or a recent graduate can overcome it by possessing the most important skills and methods of developing technical, linguistic and personal skills.

□ PhD Thesis Story #8: Aerospace Engineering □

From EGYPT SCHOLARS 📌

w/ Adel Elmahdy, Khaled Alashmouny, Ahmed A. Hamada, Haithem Taha—
We will discuss the success story of Haithem Taha, an associate professor at University of California, Irvine, and his research in the field of Aerospace Engineering.

Club House team discussed Dr. Haitham on his journey from university studies to appointment to American universities in the field of aerospace engineering. Haitham Taha is an assistant professor doctor in the Department of Mechanical and Aeronautical Engineering at the University of California, Irvine.
